

Your Life - Your Journey

Age 5-7 Winner - Collage Judges' Comments

I loved the mix medium of this collage and all of the different things like the sheep and McDonalds and how all of them are important to this child. I loved the jigsaw pieces which reminded me that each piece of our life story is important and when we put all the pieces together, we can see our life journey and who we are. Fantastic work!

I loved the reflection of the child on their life; they must be living on a farm and clearly enjoying it, as well as burgers.

I love the layout with the map underneath. The jigsaw pieces are a great way of showing the movements between the stages of the child's life. I think the picture shows what is important to the child and what they enjoy in life.
